Sadržaj

UGAONIK
CORNER 1

STEGICA
CLAMP 2

NOSAČI
SUSPENSION ELEMENTS 3

PERFORIRANA TRAKA
SUSPENSION BAND 4

METALNA STEZNA TRAKA
METAL CLAMP BAND 5

STEZAČI
CLAMPS

ALUMINIJUMSKA TRAKA
ALLOY DUCT TAPE 6

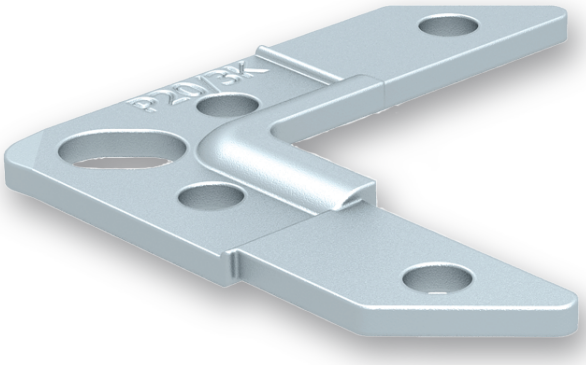

ANTIVIBRACIONA TRAKA
ANTI-VIBRATION CONNECTOR

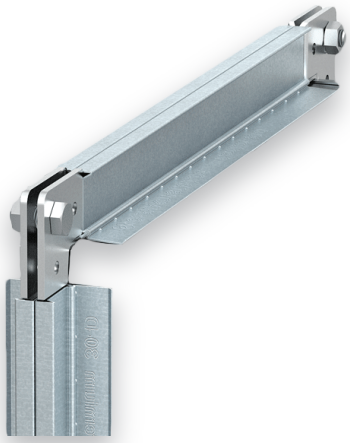

ŠELNA ZA POVEZIVANJE VENTILATORA
PIPE FAN CLAMP

REGULATOR DAMPERA
DAMPER REGULATOR 7

OKRUGLA METALNA NEPOVRATNA KLAPNA
METALLIC ROUND BECK DRAUGHT SHUTTER

JAKKA UGAONIK
JAKKA CORNER

Materijal / *Material*

Pocinkovani čelik
Galvanised steel

Model

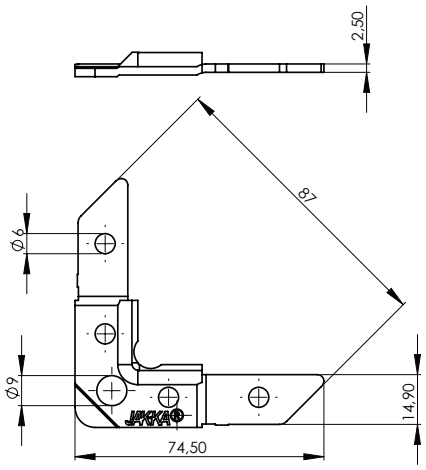

JU 21 Zn
JU 30 Zn

Pakovanje / *Package*

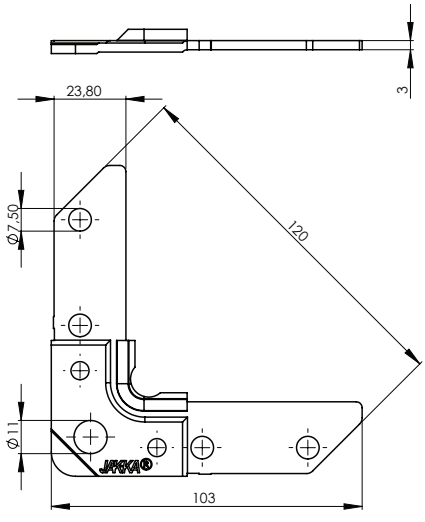

400 kom
200 kom

Ugaonik za profile od 20mm i 30mm
Corner for 20 and 30mm profiles.

TEHNIČKI CRTEŽI
TECHNICAL DRAWING

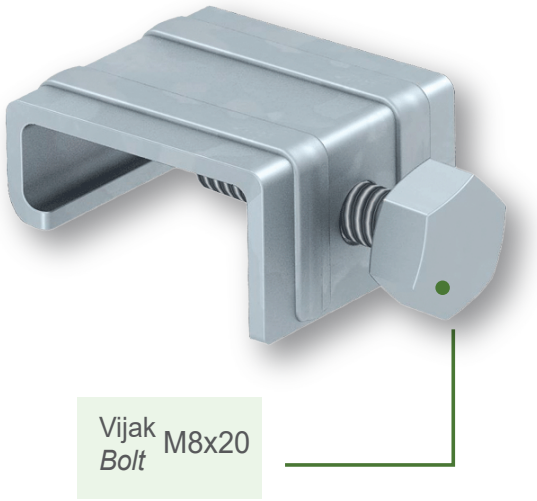

JU 21 ZN

JU 30 ZN

JAKKA STEGICA
JAKKA CLAMP

Materijal / *Material*

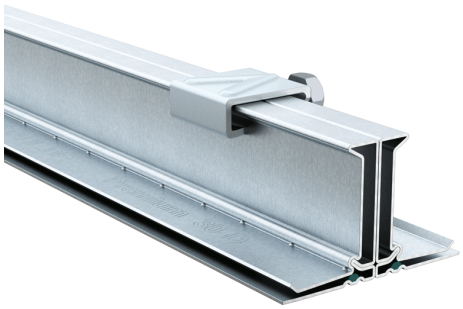

Pocinkovani čelik
Galvanised steel

Model

JS 3.0 ZN

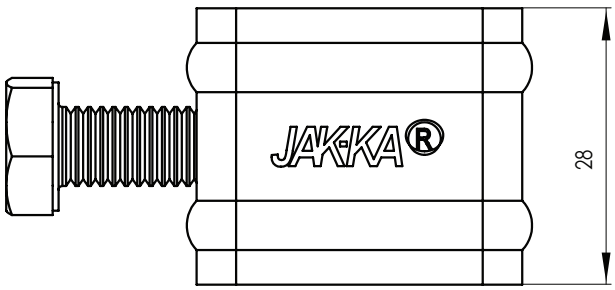

Pakovanje / *Package*

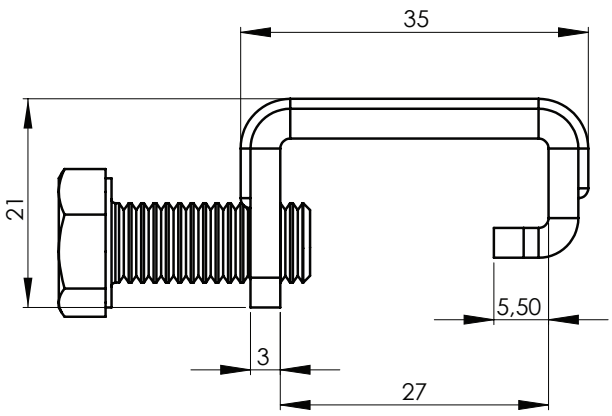

400 kom
200 kom

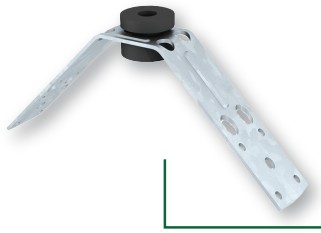

Stegica sa zavrtnjem za profile
Clamp with screw for profiles

TEHNIČKI CRTEŽI
TECHNICAL DRAWING

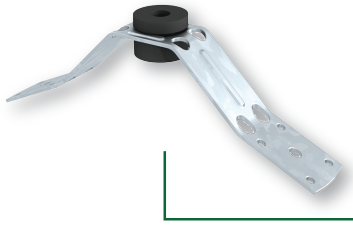

NOSAČI
SUSPENSION ELEMENTS

Prilagođen za kačenje na
nosače trapezoidnog profila

Materijal / *Material*

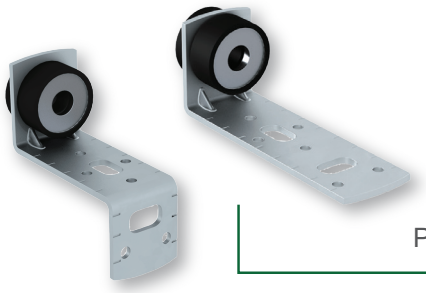

Pocinkovani čelik
Galvanised steel

Prilagođen za kačenje na
kanale kružnog oblika

Nosači su ekonomično i jednostavno rešenje za montažu ventilacionih kanala pravougaonih ili spiralnih. Obično su pričvršćeni za kanale pomoću vijaka ili zakovica

Hangers are a cost-effective and easy-to-use solution for the suspensionof ventilation ducts. They are usually attached to the ductwork by screws or rivets

Prilagođeni za vertikalan položaj

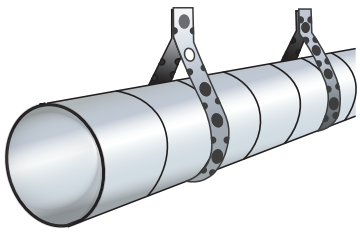

Prilagođen za ventilacione kanale
kao zvučna i anti-vibraciona izolacija

PERFORIRANA TRAKA
SUSPENSION BAND

Materijal / *Material*

Pocinkovani čelik
Galvanised steel

Perforirana traka za pričvršćivanje cevi i spuštenih plafona

Perforated band is used for suspending tubes and for installing dropped ceilings.

JAKKA METALNA STEZNA TRAKA
JAKKA METAL CLAMP BAND

Materijal / *Material*

Pocinkovani čelik
Galvanised steel

Dužina / *Length*

30m

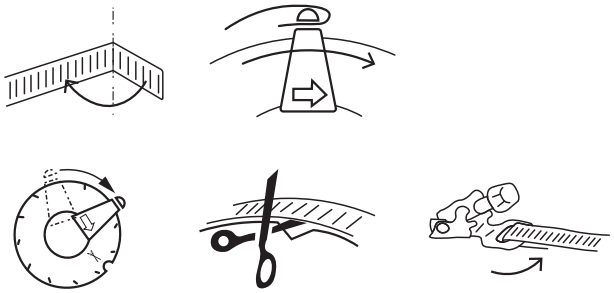

Pakovanje / *Package*

10 kom/pc

Služi za stezanje završetaka fleksibilnih creva za prirubnice. Kombinacijom stezne trake i stezaljki moguće je napraviti stezač željenog prečnika

Suitable for fixing flexible ducts endings for metal flanges. Through the combination of clamp band and clambs it is possible to crate a clamp with the desire diameter.

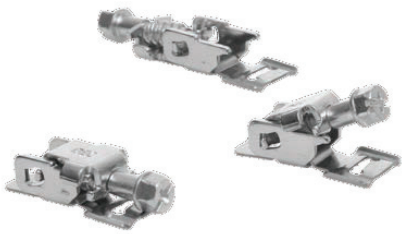

JAKKA STEZAČI
JAKKA CLAMPS

Materijal / *Material*

Pocinkovani čelik
Galvanised steel

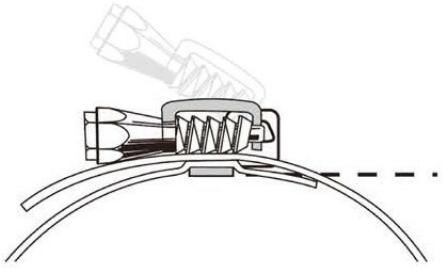

Pakovanje / *Package*

50 kom

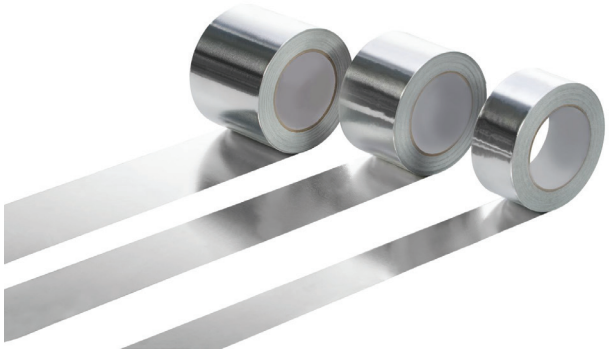

Stezačem se vrši stezanje metalne stezne trake.

Clamp is used for tighting up clamp band.

JAKKA ALUMINIJUMSKA TRAKA
JAKKA ALLOY DUCT TAPE

Materijal / *Material*

Aluminijum
Aluminium

Dimenzije / *Dimmensions*

75mmx50m
50mmx50m

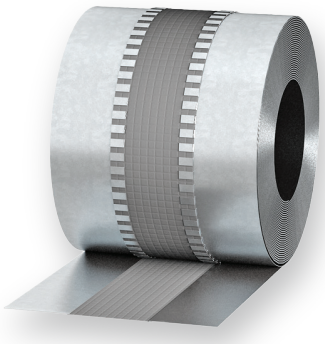

Pakovanje / *Package*

16 kom/pc
24 kom/pc

Aluminijumska samolepljiva zaptivna traka pogodna za zaptivanje u sistemima za ventilaciju i klimatizaciju kao i prilikom izolovanja istih.

Alutape is a strong aluminium foil-tape suitable for sealing in air conditioning systems and for insulation purposes.

ANTIVIBRACIONA TRAKA
ANTI-VIBRATION CONNECTOR

Materijal / *Material*

Pocinkovani lim + Poliester
Galvanized sheet + Polyester

Dimenzije / *Dimmensions*

45mmx60mmx45mm
25m

Pakovanje / *Package*

1kom
1pc

Antivibraciona traka odlično je rješenje za eliminaciju prenosa vibracije i buke u sistemima ventilacije.

Anti-vibration connector is great solution to reduce noise and vibration in air conditioning systems.

ŠELNA ZA POVEZIVANJE
PIPE CLAMP

Materijal / *Material*

Pocinkovani čelik + Polietilen
Galvanised steel + Polyethylene

Pakovanje / *Package*

10 kom/pc

Šelna služi za povezivanje ventilatora sa kružnim kanalom istog prečnika i istovremeno služi za smanjenje prenosa vibracija sa ventilatora na kanal

Pipe fan clamp serves for connecting of a fan with a circular duct in the same diameter and at the same time it decreases transfer of vibrations from a fan to duct.

REGULATOR DAMPERA
DAMPER REGULATORT

Materijal / *Material*

Plastika
Plastic

Pakovanje / *Package*

1 kom/pc

Plastična ručica za kontrolu dampera

Plastic handle for damper control

OKRUGLA METALNA NEPOVRATNA KLAPNA
METALLIC ROUND BECK DRAUGHT SHUTTER

Materijal / *Material*

Pocinkovani čelik + Aluminijum
Galvanised steel + Aluminium

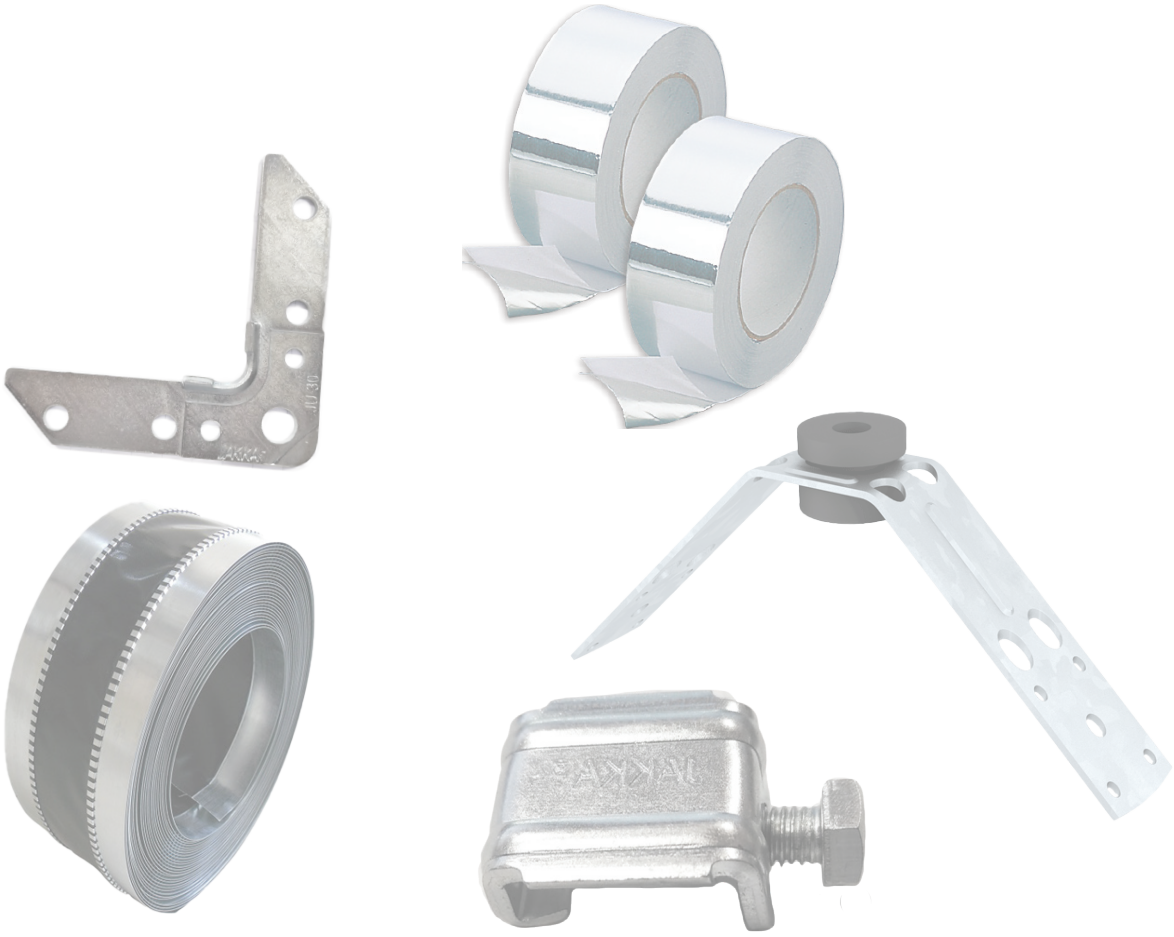

Pakovanje / *Package*

12-100 kom/pc

Nepovratna klapna je pogodna za postavljanje u kružne kanale kako bi se izbegao obrnuti protok vazduha.

Backdraught shuttter is suitable for placement in circular ducts toavoid a reverse air flow.
