TEHNIČKI PODACI

- Cene su za haube od čelika AISI304. Za AISI430, cene možete pronaći u kalkulatoru na sajtu (jeftinije za ~14%).
- Haube dužine preko 3,96m, se izrađuju iz dva ili više delova. Kod izbora hauba većih dimenzija, obratiti pažnju na dimenzije otvora ili vrata kroz koji treba da se unese.
- Osim standardnih dimenzija datih u cenovniku, moguće je napraviti haube i filtere u proizvoljnim dimenzijama po izboru kupca. Cene za proizvoljne haube se mogu dobiti preko kalkulatora na našoj web prezentaciji.
- Izrada prirubnica za kanal(e) je uračunata u cenu (broj i veličina otvora u skladu sa potrebama korisnika).
- Sve haube imaju nosače za filtere (osim ako se drugačije ne naglasi).
- Nosači haube za plafonsko kačenje se besplatno ugrađuju na zahtev kupca.
- U haube se može ugraditi osvetljenje (pogledajte odeljak dodatna oprema u ovom cenovniku).
- Uz sve haube dobija se posudica za sakupljanje masti ili slavica za odliv masti, ne i oba.
- Kod zidnih EKO hauba, bez rotirajućeg usmerivača, mlaz dovodnog vazduha je pod uglom od 90°, odnosno vertikalno naniže, ili pod uglom od 45° na Vaš zahtev.

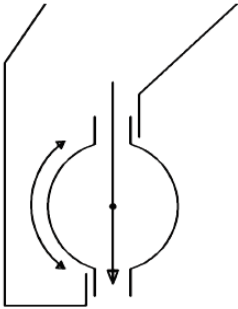

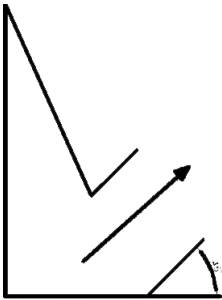

TECHNICAL DATA

- All constructions are made from AISI304. Prices for AISI430 can be found in calculator on web site (lower ~14%).
- Hood longer than 3.96m, are made of two or more parts. For all hoods with bigger dimensions, pay attention on hole or door dimensions of room.
- Besides standard dimensions in pricelist, both hoods and filters can be made in any dimensions. Prices for custom hoods can be calculated in web calculator on our web page.
- Flanges included in price (quantity and dimensions of flanges according to customer's demands).
- All hoods are equipped with filter carriers (without carriers on request).
- Hood hangers for ceiling installation are free and on request.
- Light can be added in all hoods (price can be found in additional equipment section of this pricelist).
- All hoods have their own grease collector or grease exit pipe, but not both.
- On double action wall mounted hoods, without rotating louvre, angle of intake air stream is 90°, vertically down, or 45° degree angle on request.

Sve cene su date bez uračunatog PDV-a. / All prices are without V.A.T.

DODATNA OPREMA / ACCESSORIES

Oprema / Accessories	Opis / Description	Cena / Price
Filteri / Filters	Dimenzije / Dimension : 500mmx500mm * Po potrebi, filteri se prave u potrebnim dimenzijama. * When needed, filters are made in specific dimensions.	34 €/kom (pc)
Osvjetljenje / Lighting 	Po narudžbini Za zidne, snack i pravougaone haube, preporuka je: jedna sijalica po dužnom metru (sijalice su od 35W). Za ostrvske haube, preporuka je: dve sijalice po dužnom metru (sijalice su od 35W). Special order For wall mounted, snack and rectangular hoods, we suggest: one light per 1m (lamp consumes 35W). For central hoods, recommendation is: two lights per 1m (lamp consumes 35W).	32 €/kom (pc)
Rotacioni usmerivač / Rotating louvre 	Ova funkcija može biti instalirana samo na eko haubama. This function can be installed only in energy saving hoods.	cene pogledati u kalkulatoru na web sajtu / prices can be found in calculator on web site
Ubacivanje vazduha 45° / Air intake 45° 	Ova funkcija može biti instalirana samo na eko haubama. This function can be installed only in energy saving hoods.
